

Direct Debit Form

I give First Step permission to set up a direct debit account for my child's weekly/monthly (circle preference) tuition. Please send a void check along with this form to initiate the process. After we have your authorization, please look for two micro deposits in your account. You will have to inform us of the exact dates and amounts of these micro deposits so that we may verify them with the bank, thus completing the process. We will then send you a payment schedule. Please note that it may take up to eight business days to set up the account.
